Board of Trustees' Responsibility for the Annual Financial Statements

The Board of Trustees is responsible for the preparation of these financial statements in accordance with the Regulatory Reporting Requirements for Retirement Funds in South Africa. The Board of Trustees are also responsible for compliance with the requirements of the Rules of the Fund and the Pension Fund Act and for such internal control as the Board of Trustees determine is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion the financial statements of the Mineworkers Provident Fund for the period ended 31 December 2013 have been prepared, in all material respects, in accordance with the Regulatory Reporting Requirements for Retirement Funds in South Africa.

SCHEDULE E REPORT OF THE BOARD OF TRUSTEES (continued) For the year ended 31 December 2013

2. INVESTMENTS

2.1 Investment strategy

The primary investment objectives of the fund is to earn a net investment return (after investment management fees) which exceeds inflation as measured by the Consumer Price Index (CPI) by at least 4.5% per annum over any rolling 5-year period (This is equivalent to a gross investment return of some 5.0% to 5.5% per annum above inflation). Another primary investment objective is to earn the return in such a way that the member's benefits are not adversely affected by the market conditions ruling at the time of his/her exit. This implies that investment returns should not exhibit undue volatility from one year to the next.

A further investment objective of the fund is to invest a portion of the fund's assets specifically with the emphasis placed on social responsibility (SRI). The board of trustees is guided by the Growth and Development Summit in this regard and such a portion of the fund's assets will be invested in SRI shares subject to a minimum of 5%.

With these objectives in mind, the board of trustees has formulated an investment strategy whereby approximately 45% of the fund's assets are invested in a core portfolio with a focus on capital protection. The balance of the fund's assets is invested somewhat more aggressively in a market-linked portfolio, where specialist investment managers are used for each asset class. The investment strategy of the fund complies with the provisions of regulation 28 of the Pension Funds Act.

Core Portfolio

The core portfolio aims to provide a reasonable return relative to inflation over the long term whilst providing protection of capital over the short term. The core portfolio should reduce the short-term volatility of the overall investment return earned by the fund.

Market-linked portfolio

The market-linked portfolio of the fund's assets aims to provide a superior return relative to inflation over the long term (measurement periods of at least 5 years), without taking on excessive risk. The portfolio may deliver a negative return over short measurement periods (e.g. 1 year) from time to time.

Specialist investment managers are used for each asset class in this portfolio, having taken into account each investment manager's specific skills and opportunity set.

Associated with the use of specialist investment mandates, the strategic asset allocation of the market-linked portfolio has been specified as shown below:

Asset class	Strategic allocation midpoint	Range
SA equities	60.00%	56.00% -63.00%
SA bonds	25.00%	22.00%-28.00%
International equities	10.00%	8.00% -12.00%

The Advised benefits are members where an exit confirmation has been received, but the claim has not been finalised and paid. Following the fund's data clean up excerise, this resulted in changes in the re-classifications of member records

SCHEDULE E REPORT OF THE BOARD OF TRUSTEES (continued) For the year ended 31 December 2013

Board notice 3 of 2011, applicable to all funds with financial year-ends on or after 31 July 2011, was issued by the Financial Services Board on 19 December 2011 to stipulate the financial reporting requirements of the new Regulation 28. The Financial Services Board has not issued the requirements for auditors of insurers and collective investments schemes to report on whether these investments comply with regulation 28 as required by Section 8 of the Regulation. As such the insurers and collective investment scheme auditors have not provided the required opinions on these investments and therefore the fund is unable to comply with the new Schedule IB format and the new reporting requirements arising there from in terms of the new Regulation 28. The fund has consequently prepared the new Schedule IB on pages 67 to 77 in terms of the new Regulation 28 as if the relevant auditors' opinions were obtained and the non-linked policies and collective investment schemes were in compliance with the regulations despite not being able to receive the necessary certification to this effect from the insurer.

SCHEDULE HA NOTES TO THE ANNUAL FINANCIAL STATEMENTS For the year ended 31 December 2013

1. PRINCIPAL ACCOUNTING POLICIES

The following accounting principles, which are consistent with those of the previous period are used by the fund:

1.1 PURPOSE AND BASIS OF PREPARATION OF ANNUAL FINANCIAL STATEMENTS

The annual financial statements are prepared in accordance with Regulatory Reporting Requirements for Retirement Funds in South Africa, the rules of the fund and the provisions of the Pension Funds Act in South Africa.

The annual financial statements are prepared on the historical cost and going concern basis, except where specifically indicated in the accounting policies below.

1.2 PLANT AND EQUIPMENT

Plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Repairs and maintenance costs are recognised in the Statement of Changes in Net Assets and Funds when they occur.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Changes in Net Assets and Funds when the asset is derecognised.

Depreciation is calculated on the straight-line method to write off the cost of each asset, or the revalued amounts, to their residual values over their estimated useful lives as follows:

Motor vehicle 5 years
Office equipment 3 years
Furniture and fittings 3 years
Computer equipment and software 3 years

1.3 INVESTMENTS

Non-current investments excluding marketable securities are shown at cost and adjustments are made only where, in the opinion of the board of trustees, the investment is impaired. Where an investment has been impaired, it is recognised as an expense in the period in which the impairment is identified.

1.4 FINANCIAL INSTRUMENTS

Measurement

Financial instruments carried on the statement of net assets and funds include cash and bank balances, investments, receivables and payables. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

Financial instruments are initially measured at cost, which includes transaction costs. Subsequent to initial recognition, these instruments are measured as set out below.

Investments

Held to maturity investments are measured at amortised cost using effective interest rates. Available for sale investments are measured at fair value. The fair value of marketable securities is calculated by reference to the Stock Exchange quoted selling prices at the close of business on the balance sheet date.

Collective investment scheme

Collective investment schemes are valued at the repurchase price. The value of unlisted shares is determined by the board of trustees using appropriate valuation methods.

SCHEDULE HA NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued) For the year ended 31 December 2013

Insurance policies

Non-linked insurance policies

Insurance polices in guaranteed funds are valued at fair value, i.e. equivalent to the guaranteed amount as certified by the insurers concerned. Non-vested income is included in the fair value calculation to the extent that it is not expected that there will be significant variability in the value of the non-vested income.

Derivatives

Derivative contracts are entered into mainly to hedge exposure to equities and interest generating investments. The parameters are defined in terms of the investment policy statement approved by the board of trustees.

Accounts receivable

Accounts receivable originated by the fund are stated at amortised cost less provision for doubtful debts.

Cash and cash equivalents

Cash and cash equivalents are measured at fair value.

Accounts payable

Accounts payable are recognised at amortised cost, namely original debt less principal payments and amortisations.

Benefits payable

Benefits payable consist of claims notified to the fund by the employer when the annual financal statements are prepared by the fund.

1.5 PROVISIONS

Provisions are recognised when the fund has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

1.6 CONTRIBUTIONS

Gross contributions are brought to account on the accrual basis.

1.7 DIVIDEND INCOME, INSURANCE POLICY INCOME, COLLECTIVE INVESTMENT SCHEME INCOME AND INTEREST.

Interest is recognised on a time proportion basis, taking account of the principal outstanding and the effective rate over the period to maturity when it is determined that such income will accrue to the fund.

Insurance policy income and dividends are recognised when the right to receive payment is established,

Income on collective investment schemes is recognised when the right to receive payment is established.

Gains and losses on subsequent measurement

Gains and losses on subsequent measurement to fair value of investments and of all other financial instruments are recognised in the net surplus or deficit during the period in which the change arises.

1.8 TRANSFER TO AND FROM THE FUND

Section 14 transfers to or from the fund are recognised on approval being granted by the Financial Services Board. Individual transfers are recognised when the individual member's transfer is received or paid.

SCHEDULE HA
NOTES TO THE ANNUAL FINANCIAL STATEMENTS (continued)
For the year ended 31 December 2013

1.9 CONTINGENT LIABILITIES

By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The assessment of such contingencies inherently involve the exercise of significant judgement and estimates of the outcome of future events.

Litigation and other judicial proceedings as a rule raise difficult and complex legal issues and are subject to uncertainties and complexities including, but not limited to, the facts and circumstances of each particular case. Upon resolution of any pending legal matter, the fund may be forced to incur charges in excess of insurance coverage. It is possible but not probable that the financial position and statement of changes in net assets and funds of the fund could be materially affected by the unfavourable outcome of litigation.

1.10 LEASES

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement/agreement at the inception date. The arrangement is assessed for whether fulfillment of the arrangement is dependent on the use of a specific asset(s) or the arrangement conveys a right to use the asset(s), even if that right is not explicitly specified in the arrangement.

Operating lease payments made by the fund are recognised as an administration expense in the Statement of Changes in Net Assets and Funds when the expense is incurred and not on a straight-line basis over the lease term.

The fund is currently in the process of cleansing the membership data, which involves correcting duplicate member records, reclassifying benefits based on exit type categories and correcting member exit records where there are no claim forms. This resulted in movements between the various member categories, refer to note 3 of the Report of the Board of Trustees). During the current period these movements resulted in a net movement in withdrawal benefits of R 104 654 222, and a net transfer from the unclaimed benefits of R 287 665 974.

16. RISK MANAGEMENT POLICIES

Solvency risk

Solvency risk is the risk that the investment returns on assets will not be sufficient to meet the funds contractual obligations to members.

Continuous monitoring by the Board and the fund's valuator takes place to ensure that appropriate assets are held where the funds obligation to members are dependent upon the performance of specific portfolio assets and that a suitable match of assets exists for all other liabilities.

Credit risk

Credit risk is the risk that a counter-party to a financial instrument will fail to discharge an obligation, and cause the fund to incur a financial loss.

The Board monitors receivable balances on an ongoing basis with the result that the fund's exposure to bad debts is not significant. An appropriate level of provision is maintained.

Legal risk

Legal risk is the risk that the fund will be exposed to contractual obligations which have not been provided for.

Legal representatives of the fund monitor the drafting of contracts to ensure that rights and obligations of all parties are clearly set out.

Cash flow risk

Cash flow risk is the risk that future cash flows associated with monetary financial instrument will fluctuate in amount. In the case of a floating rate debt instrument, for example, such fluctuations result in a change in the effective interest rate of the financial instrument, usually without a corresponding change in its fair value.

The board of trustees monitors cash flows by using monthly cash flow projections.

Currency risk

Currency risk is the risk that the value of an instrument will fluctuate in Rands owing to changes in foreign exchange rates.

The board of trustees monitors this aspect of the fund's investments and limits it to 20% of total assets.

Liquidity risk

Liquidity risk is the risk that the fund will encounter difficulty in raising funds to meet commitments associated with financial instruments.

The fund's liabilities are backed by appropriate assets and it has significant liquid resources.

Market risk

Market risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices of market interest rates.

Members' fund credits are credited and debited with positive or negative returns respectively.

Investments

Investments in equities are valued at fair value and therefore susceptible to market fluctuations.

Continuous monitoring takes place to ensure that appropriate assets are held where the liabilities are dependent upon the performance of specific portfolios of assets and that a suitable match of assets exists for all non-market related liabilities.

- 13. Group life to be allocated represents group life proceeds accrued for but not loaded as a benefit payable as at the valuation date. It included the self insurance component.

SCHEDULE IB MINEWORKERS PROVIDENT FUND

Registration number: 12/8/23053

Report of the Independent Auditors to the Board of Trustees of Mineworkers Provident Fund and the Registrar of Pension Funds for the period ended 31 December 2013

We were engaged to audit Schedule IB "Assets held in compliance with Regulation 28" (the Schedule) of Mineworkers Provident Fund (the Fund) at 31 December 2013 for compliance with the requirements of Regulation 28 of the Pension Funds Act of South Africa (the Regulation), as set out on pages 67 to 77. Our engagement arises from our appointment as auditor of the Fund and is for the purpose of assisting the Trustees to report to the Registrar of Pension Funds (the "Registrar").

The information contained in Schedule IB has been extracted from the Fund's underlying accounting records that were the subject of our audit engagement on the annual financial statements and forms the subject matter of this engagement. Our audit of the annual financial statements of Mineworkers Provident Fund for the period ended 31 December 2013 was conducted in accordance with International Standards on Auditing and in our report of 26 June 2014 we expressed a modified audit opinion on the financial statements, which has been prepared, in all material respects, in accordance with the Regulatory Reporting Requirements for Retirement Funds in South Africa.

Board of Trustees' responsibility for the Schedule

The Board of Trustees is responsible for the preparation of the Schedule in accordance with the Regulatory Reporting Requirements for Retirement Funds in South Africa and in compliance with the Regulation, and for such internal control as the Board of Trustees determines is necessary to enable the preparation of the Schedule that is free from material misstatements, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion based on our audit of the Schedule. We conducted our audit in accordance with International Standards on Auditing. Because of the matter described in the Basis of Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis of Disclaimer of Opinion

Regulation 28 requires that non-linked insurance policies and collective investments scheme's auditors confirm that the policies or scheme is compliant with Regulation 28 at the policies or schemes year end. However, as the basis for determining this opinion has not been issued by the FSB, the policy or schemes auditors have not been able to perform the work. The fund has consequently prepared the new Schedule IB in terms of the new Regulation 28 as if the relevant auditors' opinions were obtained and the non-linked policies were in compliance with the Regulation despite not being able to receive the necessary certification to this effect from the policies and schemes auditors. We have not been able to perform alternate procedures on these investments to satisfy ourselves that the investments in non-linked insurance policies and collective investment schemes of R 11,875,565,686 as at 31 December 2013, complied with Regulation 28.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis of Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate evidence to provide a basis for an audit opinion. Accordingly we do not express an opinion on Schedule IB "Assets held in compliance with Regulation 28".
